DOGEKING

CONTENTS

ONE

Project background
introduction

DOGEKING is a completely decentralized project. It is an organization in the form of a DAO that is completely organized by community members. The community is completely fair, just and transparent. Any decision requires community members to vote.

DOGEKING is also an absolutely safe and reliable project, users' funds can be guaranteed, DOGEKING's target distribution is clear, community members have a clear distribution of work, high efficiency, and strong consensus, they are pushing DOGEKING to the moon

In the future, DOGEKING will do the development of the metaverse chain game project and the creation of NFT, which will be completed by the leaders of the community. DOGEKING's realization of the metaverse chain game and exclusive NFT creation will be divided into four major sections, and the completion of these four sections will build an ecosystem belonging to DOGEKING.

01

**Design exclusive NFT DOGEKING king series limited edition online**

02

Integrate NFTs into games to form dynamic NFTs

03

*The development of chain game gold game*

04

**Game launch and NFT sale to form an ecosystem**

TWO

WHAT IS DOGEKING
DAO

DOGEKING DAO is a fully decentralized public project, which is a group of crypto peppers formed by all community members around a single purpose. Because there is no formal centralized leadership, DOGEKING DAO is a decentralized public; any member can decide and participate in governance, so it is autonomous.

Different from the traditional organizational form, every decision of DEFIDAO is made collectively, not the CEO or the top, we are full community members, everyone, fair, and any decision is transparent, these, DOGEKING DAO will develop future ecological environment

such as DOGEKING DAO, DOGEKING DAO NFT, DOGEKING DAO slowly realize the chain collapse technology, the city becomes a community participant, and DOGEKING DAO becomes a participant!

Why choose DOGEKING DAO?

DOGEKING DAO is completely decentralized and owned by its fun, vibrant community. Our enthusiastic founding team and volunteers welcome and embrace different perspectives to make DOGEKING DAO the best crypto community possible. In this regard, we are committed to bigger and better marketing campaigns to make our projects a success!

Safe and reliable

DEFIDAO smart contracts are developed by a professional team that has been manually reviewed and screened. Our team will go through a full review process with a technical review immediately after release. Additionally, our founding team and volunteers will continuously monitor all social activities to protect our community from potential bad actors

DOGEKING DAO NFT Marketplace

15 Additional CEX Listings

100000 Telegram Members

100000 Holders

FOUR

HOW TO BUY DOGEKING

How to Buy DOGEKING ?

Best to buy and sell through PancakeSwap, but our team is working hard to expand to the growing CEX list. We will continue to update the community as we list on more exchanges.

Quick Start Guide

Create a MetaMask Wallet, TrustWallet or use an existing wallet. You can create a MetaMask wallet using a desktop computer or an iOS/Android mobile device. This will allow you to buy, sell, send and receive Tangyuan.

Send BNB to your wallet
You can buy BinanceSmart Chain (BSC) directly on Binance.com and transfer it to your MetaMask wallet by adding the Smart Chain network to your wallet. You can also buy Ethereum (ETH) or various other tokens and exchange them for BSC. Be sure to use the BEP-20 network when transferring BNB.

Connect your wallet to PancakeSwap
Connect your wallet to PancakeSwap by clicking "Connect Wallet". Once connected, find the "Transaction" tab, then press "Select Token" and enter our token contract address :
0x641ec142e67ab213539815f67e4276975c2f8d50

to change the receiving token to DOGEKING: Exchange BNB for Singles With BNB, you can start exchanging! Just adjust the slippage tolerance to 10% and swap it out!

THANK YOU
